Chorus

I got to use you not being here
For all the time you said but I
Have to kiss you good bye

Vb1

Have to change the locked on the door by the
telephone
You waving good bye
The sadness thing
That you love me now have to put you behind me
No regret
Not in my heart boy
Now have to think what we had
I won't let it go
Cause you not here
Last thing I thought was good for us have to kiss you
good bye (kiss you good bye)
Then you left
Worse thing is sayin goodbye
Last thing you hear any body say but I have to got to
kiss you good bye

Chorus 2

I got to use you not being here
For all the time you said but I have to kiss you good bye

Verse 2

We had some good time while not make it last
Goin out use to be some fun
Goin out to favorite place
Now those good time is gone
Now I'm singing to myself
I thought we had
I'd did love you
Now it far to late now I'm talk to you
But your love through thick and thin

(Chorus 2)

Bridge

We been together for so long
It hard to say what you feelin inside, yes I love you
What we had was good but I'm say this the end what we
was good now
I'm down to my straw
This last on good note
Will not be goin on
Cause make up and we kissed
But I'm not say you have to end
Without saying goodbye but I
Have to kiss you good bye

Vb2

Have to change the locked on the door by telephone
You waving good bye
That you love me now have to put you behind me
No regret
Not in my heart boy
I won't let it go
Cause you not here
Last thing I thought was good for us have to kiss you
good bye
Then you left
Worse thing is good bye
Last thing you never anybody said but I
Have to kiss you good bye
Chorus x4
