Oh oh oh

Lord I pray that in my lifetime there will come a day
When the world will wake up with unclouded eyes
And there'll be no more need to cry won't you bring
That dream to life

Oh oh oh oh lord I pray deliver us form bigotry
And hate please give shelter to the wayward
Children comfort them and keep them safe

Oh oh oh oh lord I pray for a world were no weapons
One day please give wisdom to the ones who
Lead us Jesus help them find their way

Oh I'm praying that the love you shower
Down on us will lift us up and we will live
As one I know there'll come a day I know you'll make
A way please listen as I prayayayayyy

Oh oh oh

Lord I pray that in my lifetime there will come a day
When the world will wake up with unclouded eyes
And there'll be no more need to cry won't you bring
That dream to life

We can all open up our hearts and mind
You know were all the same inside
Won't you bring that dream to life?
Won't you bring that dream to life?
Oh oh oh oh oh
