Stevie J:

I got a real remix  
You know what it is already?  
MC what? Mocha

Mocha:

Uhh no time surrenderin' to the spice in cinnamon  
Left you tremblin' and of nights rememberin'  
The love lost guess it up and toss  
If you say it so well that how it come across  
Still can't spot one who can top son  
Could call on your doggs cuz you know I'm one  
If you put it in a clip then I pop one  
If you pushin' in a wig then I gotta shot one  
Or factual, let's be practical  
Act natural is what we have to do  
I'ma ride for you and I betta slide wit' you  
Understand? I ain't the one to be lyin' to you  
I'm like that Benz drop, pulling down your block  
I'm like that Ice Convertible, to put on your watch  
I want you starin' and comparin' to the stuff you got  
Have your heart stop, watch my joints charts top

Mariah Carey:

Still believe in you  
Still believe in you  
We'll find ourselves in love  
I still believe, boy  
You know that true love never ends

Boy, when you look into my eyes  
I get emotional inside  
I know it's crazy, but it's true  
You were there, things have changed  
But inside I know it will feel all the same

I still believe in you  
Still believe in you  
We'll find ourselves in love

I still believe, boy  
You know that true love never ends

Each night and everyday of my life  
I feel with all the joy inside  
If there's a spark of hope left in my grasp  
I will keep holding on  
Cuz it's worth the risk to have a second

I still believe in you  
Still believe in you  
We'll find ourselves in love  
I still believe, boy  
You know that true love never ends  
Still believe in you

Stevie J:  
Breakdown

Mariah Carey:  
All that I know (all that I know)  
Simply let go (simply let go)  
We'll let it all (we'll let it all)  
Just past us by  
Don't be afraid (don't be afraid)  
True love will never end  
We will love again

Stevie J:  
Yes, yes y'all  
You know it don't stop  
Let it keep rockin'  
Cuz I'ma keep the beat knockin'  
Yes, yes y'all  
You know it don't stop  
MC, Amil

Amil:  
Uhh, now you know cats say I be  
Lil JIG, the dog bite, you OK by me  
I need a man in my life who could handle my price  
And still be on my shit after I stand him up twice  
Huh! Let me see if you got what I need  
Like a little drinkin' money for the shopping sprees  
Might, next, you lockin' me down for that option to be  
Goin' through may absorb that you copping me B's  
Plus, I gotta be 'quippin' the latest  
And before anything, Jay has to OK this  
So, make sure it coming right with yours  
I mean, like, handin' me dumber and fightin' more  
Step your game up if you runnin' type of chores

Cuz, see my niggas bring that tonic  
The night before I come with interest  
If you're interested  
Ballers, I take them that never sensitive, uhh
