Chorus

I can't not feel
I can't not touch
Without feel you with me
That you're with me
I'm nothin without you're smile smilin' back at me
I guess that we mean for each other
I want to tell you so much more guess time running out
cause you mean that much to me
Without you I'm nothin without feel you first

Verse 1

You still looking beautiful to me
No one can change that you still for me lookin in to
eyes
del knew I would hurt again
I don't wish this anyone
love should stay the same
I could be happy for us
We can stay like this forever
