I was a girl, you was a man  
I was too young to understand  
I was naive, I just believed  
Everything that you told me  
Said you were strong,  
Then I found out that you were weak  
Keepin' me there, under your thumb  
Cause you were scared that I'd become much  
More than you could handle,  
Shining like a chandelier  
That decorated every room inside  
The private hell we built,  
And I dealt with it  
Like a kid I wished I could fly away  
But instead, I kept my tears inside  
Cause I knew if I started I'd keep crying  
For the rest of my life with you  
I finally built up the strength to walk away  
Don't regret it but I still live with the side effects  
When I space am I still dreaming 'bout them violent  
times?  
Still little protective 'bout the people that I let inside  
Still little defensive thinkin' 'bout me tryin' to run my life  
Still little depressed inside, I fake a smile and deal with  
the side effects  
(Oh, oh)  
Side effects (Oh, oh)  
Side effects (Oh, oh)  
Side effects (Oh, oh)  
( Busta Rhymes)

Get rid of that stress, rub it off girl,  
You don't really need that, brush it off girl,  
Like you ain't really going back anytime you breaking  
at, and you don't need to cut it of girl,  
Real talk baby, know I feel your pain,  
Let me lift your strength cause it would kill your brain,  
I ain't really got to say no name,  
Even I was going through the same old thang,  
Little situation that would probably make you insane,  
Watch you get a little bored up at the loss of the game,

The side effect would probably make you bug just a little bit while you go through it and you had a little shame,

But it's alright, it's okay.!

See now I'm a get know I know my way,

Real slow, I'm a take it day by day,

I remember what my mama used to say,

Stand up straight,

Hold your head high,

Sky is the limit, so reach for the sky,

Live to the fullest little baby don't cry,

Don't matter what they trying to do fly baby fly.

Now that I'm good I'm a reach for the next,

While I see the world different from my new

specs.[Side Effects Remix ft Busta Rhymes Lyrics On ]

On everything that I love with all due respect,

I say we moves on minus the side effects.

When I space am I still dreaming 'bout them violent times?

Still little protective 'bout the people that I let inside

Still little defensive thinkin' 'bout me tryin' to run my life

Still little depressed inside, I fake a smile and deal with

the side effects

(Oh, oh)

Side effects (Oh, oh)

Side effects (Oh, oh)

Side effects (Oh, oh)

It didn't stop, no one was there

Couldn't be real, had to keep quiet

Once in awhile, put up a fight

It's just too much, night after night

After awhile I would just lie,

You wasn't wrong, said you was right

Did what I could, just to survive

Couldn't believe this was my life,

Flickering like a candle

Do my best to handle sleeping with the enemy

Whether he was smothering every last part of me

So I broke away and finally found the strength to leave

Still kept the tears inside

Cause I knew if I started I'd keep crying

For the rest of my life with you

I finally built up the strength to walk away

Don't regret it but I still live with the side effects

When I space am I still dreaming 'bout them violent times?

Still little protective 'bout the people that I let inside

Still little defensive thinkin' 'bout me tryin' to run my life

Still little depressed inside, I fake a smile and deal with

the side effects

(Oh, oh)  
Side effects (Oh, oh)  
Side effects (Oh, oh)  
Side effects (Oh, oh)  
Forgive but I can't forget,  
Every day I deal with this  
I live with the side effects  
But I ain't gonna let them get the best of me  
Forgive but I can't forget,  
Every day I deal with this  
I live with the side effects  
But I ain't gonna let them get the best of me  
Kept my tears inside  
Cause I knew if I started I'd keep crying  
For the rest of my life with you  
I finally built up the strength to walk away  
Don't regret it but I still live with the side effects  
When I space am I still dreaming 'bout them violent  
times?  
Still little protective 'bout the people that I let inside  
Still little defensive thinkin' 'bout me tryin' to run my life  
Still little depressed inside, I fake a smile and deal with  
the side effects
