Nas:
Let's show the world you my golden girl
When we shopping
They see us on the street
They say son scooped a hot one
You taste like banana cake
You shaped like the number 8
And you my number one candidate
I can't lose you
It's like I'm betting in Vegas crucial
Sweating knowing these players is wanting you boo
I get the chills when you in my sight
Feels like it's meant to be right
I feel the rush when I kiss you at night

(Joe
