(feat. Nelly)

Oh, to the floor, everybody to the floor [repeat]

Neptunes

To the floor, everybody to the floor

MC, Nelly

Baby, I don't want to let you think

I'm

I like to try ya, I think you so on fire

Easy, like them other girls you be seein'

I can't deny ya, I be tryin' to fight it

I'm sayin', I just wanna make sure that

You really want me just for me

Because it's not just that I'm so impressed

By your cars and jewelry

And you know like I know

Feel that chemistry

You know I feel it just the same as you

So why don't you bring that down to me

Whatever happens

It's goin' down tonight

I said, it's all goin' down tonight

I said, it's all goin' down tonight

I said, it's all goin' down tonight

So get ready

Cause you and me got business

We gon' handle it tonight

Tonight, tonight

Tonight, tonight

To the floor, everybody to the floor

I would never think that you were

I like to try ya, I think you're so on fire

Easy, girl I just think that you are so outstandin'

I can't deny ya, keep tryin' to fight it

I'm sayin' I just wanna make sure that

You really want me just for me

Because it's not just that I'm so impressed by
Your cause and your cars and jewelry
And you know like I know
Feel that chemistry

You know I feel it just the same as you do
So why don't you bring that down to me

Whatever happens, whatever happens
It's goin' down tonight
I said, it's all goin' down tonight
I said, it's all goin' down tonight
I said, it's all goin' down tonight
So get ready
Cause you and me got business
We gon' handle it tonight
Tonight, tonight
Tonight, tonight
To the floor, everybody to the floor

Looks like it's right
For you and I
It's going down
Tonight

Whatever happens
It's goin' down tonight
I said, it's all goin' down tonight
I said, it's all goin' down tonight
I said, it's all goin' down tonight
So get ready
Cause you and me got business
We gon' handle it tonight
Tonight, tonight
Tonight, tonight

It's goin' down tonight, it's goin' down tonight
