There's no secrets left between us  
When we kissed it didn't matter who'd see us  
No one at all  
But tonight were not together  
I don't want to keep tossing and turning  
I miss you that's all  
And I can't stop thinking' about you  
And I cant start letting you go

You are still on my mind  
It's so easy to love you  
I've got only one desire ooh baby  
You are still on my mind  
And I cant help but wonder  
If you could love me one more time

Take my loneliness and break it  
Every song brings back sweet memories of love  
Or was it real love?  
Because tonight were not together  
And I don't want to keep tossing and turning  
I want u to call  
'Coz I can't stop thinking about you  
And I can't start letting you go

You are still on my mind  
It's so easy to love you  
And I'm wanting you more than ever  
You are still on my mind  
And I cant help but wonder  
If you could love me one more time
