I want cheese but I can't digest the shit
I'm on a leave in the middle of Washington
These are some of the things I can't eat
It's yogurt, milk, and cheese that makes me shit
I can not not not have nothing
But when I eat dairy my bowels do flow
Uh-oh I think I shit myself (ohhh!)
I had some ice cream and...
I'll be back, I'm goin' to the can!

He cannot digest the lactose these are just the facts
He cannot digest the lactose these are just the facts
He cannot digest the lactose these are just the facts
He cannot digest the lactose these are just the facts

Surpass the old with it's temporal spins,
I got the balls, but the boss will win, I say
I gotta walk and I'll walk again, I say
I'm belly up, I might break down, oww
Putrid instincts
Stop putting down, I'm losing this time, yeah
WASTE OF LIFE, I'LL BEAT YOU DOWN
ahhhhhhhHHOWWW!
