I can't expect you to see  
me when i'm not around  
and my voice is destroyed  
by confinement of sound  
i'm a human machine  
laced with hidden disease  
if the future looks bleak  
then you're connected to me

flesh into gear  
myself appears dissected and pretentious  
a simple sound a heavy sigh  
you'll win the whole world over  
you'll live in fear of being someone that you didn't want  
to  
i realize your insecurities will get the best of you  
a traitor's embrace  
how foolish how wrong  
contained in one place  
anxiety spawns  
unopened reowned  
what's needed upscaled  
digested inhaled  
unwilling unwound

flesh into gear  
myself appears dissected and pretentious  
a simple sound a heavy sigh  
you'll win the whole world over  
you'll live in fear of being someone that you didn't want  
to  
i realize your insecurities will get the best of you
