Oh, to the floor  
Neptunes, everybody to the floor  
Oh, to the floor  
MC, everybody to the floor, Nelly, come on

Baby, I don't want to let you think I'm  
I like to try ya, I think you so on fire  
Easy, like them other girls that you bein' seein'  
I can't deny ya, I keep tryin' to fight it

I'm sayin' I just wanna make sure that  
You really want me just for me  
Because it's not just that I'm so impressed  
By all your cars and your jewelry  
And you know like I know, feel that chemistry  
You know I feel it just the same as you  
So won't you bring that down to me

Whatever happens, it's goin' down tonight  
I said, it's all goin' down tonight  
I bet it's all goin' down tonight, so get ready  
'Cause you and me got business we gon' handle it  
tonight  
Tonight, tonight, tonight, tonight  
To the floor, everybody to the floor, come on

Shorty I would never think that you were  
I like to try ya, I think you're so on fire  
Easy, girl I just think that you are so outstandin'  
I can't deny ya, keep tryin' to fight it

I'm sayin' I just wanna make sure that  
You really want me just for me  
Because it's not just that I'm so impressed  
By all your cars and your jewelry  
And you know like I know feel that chemistry  
You know I feel it just the same as you do  
So won't you bring that down to me

Whatever happens, it's goin' down tonight  
I said, it's all goin' down tonight  
I bet it's all goin' down tonight, so get ready

'Cause you and me got business we gon' handle it  
tonight  
Tonight, tonight, tonight, tonight  
To the floor, everybody to the floor  
To the floor, everybody to the floor, come on

Looks like it's right for you and I  
It's going down tonight

Whatever happens, it's goin' down tonight  
I said, it's all goin' down tonight  
I bet it's all goin' down tonight, so get ready  
'Cause you and me got business we gon' handle it  
tonight  
Tonight, tonight, tonight, tonight

Whatever happens, it's goin' down tonight  
I said, it's all goin' down tonight  
I bet it's all goin' down tonight, so get ready  
'Cause you and me got business we gon' handle it  
tonight  
Tonight, tonight, tonight, tonight, tonight, tonight  
Tonight, tonight, tonight, tonight
