So tonight my dear, I'll give you anything you want

Just stay close to me you'll never get enough

Under the stars we can rest as one

Because all I need is you next to me to bring out the
sun.

But you won't wake up

And the smile on your lips is a cold hearted lie

When the poison kicks in now it's me left to die

You look so perfect lying in repose

Like you're lying your back on a bed full of needles

Won't you please wake up?

Oh, now lay your head back down baby

Lets pretend it's Romeo and Juliet

Don't worry baby

It's all gonna be fine

Just close your eyes, closes your eyes tonight

Tomorrow you'll wake up in my arms

Drink this vile

Now baby please smile

But you won't wake up

And the smile on your lips is a cold hearted lie

When the poison kicks in now it's me left to die

You look so perfect lying in repose

Like you're lying your back on a bed full of needles

Won't you please wake up?

Why aren't you breathing
I thought we were dreaming
My love?
Fall back!
Don't be like that
Wake up!
Oh God, it's the end of the act
