"Ever After"

Once upon a time I used to romanticize
Used to be somebody never mind
Don't miss it that much now
I think it's sinking in
Days that I wonder where I've been
In picture perfect porcelain
But I won't lose a pound

You say I would make a better liar
I never face the music when it's dire
I breathe disaster, ever after
Don't you pull away from me now
Don't you move, can't you stay where you are just for
now
I could be your perfect disaster
You could be my ever after,
After all I could be your perfect disaster
You could be my ever after

Apologies I'm not myself,
But I can guarantee
That when I get back you won't believe
That you knew me well
Don't want to think about it
I'm fucking tired of getting sick about it
Now stand back up and be a man about it
And fight for something

Nobody told ya this is gonna fold ya
We go marching in like toy soldiers
To have and hold ya over sold ya
They're marching like toy soldiers

Somehow don't, you dare fail
Fail me now ever after
Face the music when it's dire
Once upon a time
This place was beautiful and mine
But now it's just a bottom line
Barely comes to mind
Ever After was mine
I'll be your disaster, ever after

So fire away
Goodbye
