"The Stars Line Up"

Visit "[The Stars Line Up](#)" on MotoLyrics.com

The stars line up
The stars line up for me tonight
The stars line up
The stars line up tonight to see
To see who we are, baby
And write our names
High up inside the sky

The stars line up
The stars line up for me tonight
The stars line up
The stars line up tonight to see
To see what we know, baby
And write our names
High up inside the sky

I lined them up for you
The time is clear
What else is there to do?

The stars line up
The stars line up for us tonight
The stars line up
The stars line up tonight to see
To see who we are, baby
Let's write our names
High up inside the sky

I hope you know
I hope you know the way I feel
I want you so

I hope you know the way I feel
I feel about you, baby
Let's write our names
High up inside the sky
