This time
If you want me to come back
It's up to you,
But remember
I want a lot other things you used to do
You're gonna have to toe the mark and walk the line.
This time will be the last time.

This time
If I should feel unwanted
I won't stay.
Each tomorrow
Will depend on the love you give today.
It's all up to you to stand by.
This time will be the last time.

If this time should be
Anything like the other time
This time will be the last time.

This time
If you want me to come back
It's up to you,
But remember
I want a lot of things you used to do.
You're gonna have to toe the mark and walk the line.
This time will be the last time.

If this time should be
Anything like the other time
This time will be the last time.
