Is it real, can I see you?
Or is it just elusive dreaming?
Far and away are you
Am I here in your breath?

Remnants of where you are I am
Lost and how I wait for you [Time And The Maiden](#) holding on

After all this time I still carry my heart blind
oh I am killing time with liars [Time And The Maiden](#) its all this
time

It's in your voice
all we are is nowhere that I am
Lonely and I still wait for you [Time And The Maiden](#) holding on

After all this time I still carry my heart blind

oh I am killing time with liars [Time And The Maiden](#) it's only time
All this time recreating my mind
[Time And The Maiden](#) eyes open wide
[Time And The Maiden](#) to all this crime [Time And The Maiden](#)

After all this time I still carry my heart blind
After all this time I am still blind,
Still Killing time with liars
All this time recreating my mind [Time And The Maiden](#) all this
time
