Paint me in your sunshine
Wake my sleepy eyes
Round me in your comfort
Stay with me for all of time

Reach your hand,
I'll follow
Darken clouds for your rays of hope

So paint me in your sunshine
Walk with me, stay by my side
Fill my head with stories
For love and war and glory

Reach your hand,
I'll follow
Light the path that will lead me home

Oh, oh, Home [x2]

One day the world will grow colder
Everything we've come to cherish crumbles
And only then will we turn back and remember your
glow

Paint me in your sunshine
Leave the part of you behind
Tell me where I'll find you
And send me off to another day
Till we meet tomorrow

Reach your hand,
I'll follow
Hold me close till the day that I grow old

Oh, Oh, Oh, Oh, Oh [x2]
Mm, Hmm, Hmm, Hmm [x2]
