"Stop Me"

Visit "[Stop Me](#)" on MotoLyrics.com

I'm infected it's like a disease
Like poison, you touched me, my heartbeat
It's spreading so sweetly
What are you thinking... when we're this close?
I count on the space that I keep
Guards up in towers they're watching, they're waiting
Don't hurt me
The walls that protect me, keep me inside
I hate it when we say goodbye
Alone for the rest of the night... without you

Tonight, I am waiting for you
To call me when you're not supposed to
I've been trying to send you signs
The doors to me are hard to find
So stop me, stop me, this time...

You kiss me goodnight on the cheek
Each time it gets closer to my lips
Or am I imagining
The parking lot's empty
So kiss me again

I hate it when we say goodbye
Alone for the rest of the night without you

Tonight, I am waiting for you
To call me when you're not supposed to
I've been trying to send you signs
The doors to me are hard to find
So stop me, stop me
Stop me stop me...

I've been trying to send you signs
The doors to me are hard to find
So stop me, stop me
Stop me stop me...

Stop me stop me, this time
