The first time i meet you  
My heart felt happiness  
I'm longing for your touch,  
For your kiss and embrace

And then I realize  
That love finds a way  
To meet the one you've lokin' for

[Chorus]  
It's you and me forever  
It might be you and me until infinity  
I'll be yours and you'll be mine  
Until the end of time

Next day I saw you  
The Love I felt as more improved  
I'm wishing you to stay  
Here in my heart, forever...(oohhh.. forever)

Then I realize  
That love finds a way  
To meet the one  
You've lookin' for

[Refrain:]  
I cant hide it' ,  
I always feel it.  
The road that we take  
Will lead us to heaven

And it's you and me forever  
It might be you and me  
Until infinity  
I'll be yours and you'll be mine  
Until the end of time

Hmmm.. ohh..

Til' the end of time
