I could take what the world has to give
If I'm with you, I could face each day
With a heart, that doesn't know how to stop
Hold my hand then take me to anywhere
I'll follow your lead
You can bet I'll be there, baby
There is nothing I wouldn't do, for you

Oh, nothing's too high
Nothing's too low
Nothing's too hard
When I'm with you
If your arms around me
I could take anything
You know this is true

What's there to fear, when your love is near
What's there to be scared of?
When I'm, Ooh... I, I, I, I'm with you.
When I'm with you ooh.

Every once in a while, there's a storm
That comes to my life
I will face each one with a smile
Knowing you're right beside me

I'm not afraid in the darkest of night
Cause' I know you'll be there
And you will be my light, baby
There is nothing I wouldn't do, with you.

Oh, nothing's too high
Nothing's too low
Nothing's too hard
When I'm with you
If your arms around me
I could take anything
You know this is true

There is no way I would run from any battle I'm in
There is strength when you're holding my hand
There is no way I would give up a fight

I'll go on, with you
You, you, you, you.

(REPEAT 2X)

Nothing's too high
Nothing's too low
Nothing's too hard
When I'm with you
If your arms around me
I could take anything
You know this is true

What's there to fear, when your love is near
What's there to be scared of?
When I'm, Oooh.
I, I, I, I'm with you.
When I'm with you ooh.
