Livin' on my own  
I always felt so strong  
I listened to my heart  
But only in that song, you know...  
I was afraid I didn't know myself  
I wasn't me till I met you...

Love to know all about you  
Oh baby, all about you  
And I want you to know all about me

How could this be for real  
Is life something you feel  
So many days I spent  
Not knowing time was heaven sent  
I never thought that life is a miracle  
Now I know it's meant to be

Love to know all about you...

In times of loneliness  
I've been tasting the fear of losing you  
But my heart is strong and I'm no fool

I will always love you, I will always love to...
