Everybody loves stars  
Everyone fell  
Into her world  
She made here

Where everybody rates love  
But I don't care  
'Cause it's her world  
She made me

You think you're half as good as me  
The only thing you'll ever be  
Is just a way for me to bleed  
On this stage

Everybody loves stars  
Everyone fell  
Into her world  
She made here

Where innocence is taken  
But I don't care  
'Cause it's her world  
She made me

You think you're half as good as me  
The only thing you'll ever be  
Is just a way for me to bleed  
On this stage

You think you're half as good as me  
The only thing you'll ever be  
Is just a way for me to bleed  
On this stage

Now she's old  
She's been blessed  
Take a bow  
And confess

Now she's old  
She's been blessed

Take a bow  
And confess

She threw it all away  
My angel died that day  
No one came  
No one cared

She threw it all away  
My angel died that day  
No one came  
No one cared

You think you're half as good as me  
The only thing you'll ever be  
Is just a way for me to bleed  
On this stage

You think you're half as good as me  
The only thing you'll ever be  
Is just a way for me to bleed  
On this stage

You think you're half as good as me  
The only thing you'll ever be  
Is just a way for me to bleed  
On this stage
