Every time I see the stars shine down  
I think of her  
The life she lives today  
Made a deal to trade her life for fame  
A super star inside her when she plays

Did you see her flow  
Did you see a spark  
Did you see her go  
Did she break your heart

Did you see her flow  
Did you see a spark  
Did you see her go  
Did she break your heart

On a plane they say to take the world  
To heal our souls despite her own heart break  
Destination unknown every day

The lights on her  
Tonight her home's the stage

Did you see her flow  
Did you see a spark  
Did you see her go  
Did she break your heart

Did you see her flow  
Did you see a spark  
Did you see her go  
Did she break your heart

Can you see her flow  
Can you see a spark  
Did you see her go  
Shines like a star  
Like a star  
Shining like a star
