Just go away

Those sounds around you used to play along with your  
torn up head  
Well as the music seeps into you everyone was  
trampled dead  
Well everyone could feel your madness slip in till it  
takes control  
Well everyone could see right through you I wish you  
would

Just go away, go away, go away  
Go away, go away, go away

Go away from all the pain that made you half as good  
as God  
Taken all over in my brain I recall the future  
Take another star make him feel the pain

Those sounds around you used to play along with your  
torn up head  
Well as the music seeps into you everyone was  
trampled dead  
Well everyone could feel your madness slip in till it  
takes control  
Well everyone could see right through you I wish you  
would

Just go away, go away, go away  
Go away, go away, go away

Go away from all the pain that made you half as good  
as God  
Taken all over in my brain I recall the future  
Take another star make him feel the pain

For every song you ever wrote take another fucking  
drink  
Every melody that haunts take a pill that makes you  
faint  
Every part of you that hurts take a needle make it sting  
The irony is I'm just like you a pseudo, fucking freak

Go, go, go, go  
Go away, go away, go away  
Go away, go away, go away  
Go away, go away, go away  
Go away, go away, go away, away

[Incomprehensible]
