I don't love how you love but please don't lever me here
alone
I don't feel how you feel
Well its my faut I'm bones
I don't die how you die I can't just waste away
You keep changing your life everyday

Chorus:

If it burns I'll keep fueling the same dream
If you fall I'll remember to save game
I don't want you remedy

I don't fall how you fall
I won't hold on, you can't let go
When its pain that I feared
I made you take it slow
I do't cry how you cry
There's nothing left in me
you keep changing my life everyday

Chorus 2X

I don't want
I don't need
I don't want
Remedy!
(repeat 2X)

Chorus
