i can take another bet,  
she loves to fuck, i must confess.  
everything is so abused,  
the little things she puts me through.

i can't stand to be insane,  
you little fuck you're so arranged  
all the pain is nearly dead,  
that's in my thoughts, and in your bed

i can't change well guess who, came to kill the love  
here.  
every time you fuck guess who, came to kill the love  
here.

i won't scream i'll take your bet,  
she loves to fuck, i must confess.  
everything is so abused,  
the little things she puts me through.

i can't stand to be insane,  
you little fuck you're so arranged.  
all the pain is nearly dead,  
that's in my thoughts, and in your bed  
can't kill monsters!
