Princess is gone, where did she go?
Headlines today
Majesty lost all her control
King's on his way
Up in the sky, Superman falls
The witch gets away

Welcome 2 my world

Take my hand and come along
John Lennon's singing Elvis songs
New York brings their symphony
In my back yard Sinatra sings for me

Prince Charming pulls up on his horse
Send him away
Fantasies gone, no crystal ball
Things never change
Marilyn Monroe up in my room
Sleeping away

Welcome 2 my world

Take my hand and come along
John Lennon's singing Elvis songs
New York brings their symphony
In my back yard Sinatra sings for me

Welcome 2 my world
Welcome 2 my world

Take my hand and come along
John Lennon's singing Elvis songs
New York brings their symphony
In my back yard Sinatra sings for me
