In a violent world
Where deception's free
Things I can't control
Taking over me
Did they try to take
My identity
So what the hell
Have they done to me!

I will take your thoughts away
And I'll ignite your fear today
Well I can take you far away
With my mind [2x]

This life for me
Changes everyday
I will stand up tall
I won't be betrayed
If you play with fire
I'll control the flame

I'll do anything
To make you believe!

I will take your thoughts away
And I'll ignite your fear today
Well I can take you far away
With my mind [2x]

I will take your thoughts away
And I'll ignite your fear today
Well I can take you far away
With my mind [2x]

I'll take all your thoughts away
And I'll ignite your fear today
Well I can take you far away
With my mind [2x]
