I read the news today
Felt like nothin' to believe in
The time, oh the time is just rude
And outside my window I see the bad moon

I fell asleep with the tears
Taste of tears feels kind of safe
Maybe time, time will change
But right now I just feel like

I don't wanna know a night like this
The bad moon is shining over me
Don't wanna feel like a lonely lover
My lover feels no longer for real

I called my mother tonight
She's still okay after all she's been through
But her voice was kind of sad
She said I've changed

I don't wanna know a night like this
The bad moon is shining over me
Don't wanna feel like a lonely lover
My lover feels no longer for real

You know I love you
Someday I will
I will know you always
I don't blame you
Only the bad moon

I don't wanna know a night like this
The bad moon is shining over me
Don't wanna feel like a lonely lover
My lover feels no longer for real

Don't wanna know a night like this
The bad moon is shining over me
Don't wanna feel like a lonely lover
My lover feels no longer for real
