I have a fantasy
It's wild, blossom, free
I'm walking by the sea
With the wind you have come to

Rescue me
Bring my far beyond my darkest dreams
Open up this cage and let me see
White doves flying high where no rivers run dry

I landed by your side
Closed my wings to the tide
My heart is sad, you'll see
Give me time, I will heal

Rescue me
Bring my far beyond my darkest dreams
Open up this cage and let me see
White doves flying high where no rivers run dry

I dreamt this dream of you
You sang like angels do

Rescue me
Bring my far beyond my darkest dreams
Open up this cage and let me see
White doves flying high where no rivers run dry
