One, two, three, four

Leona's lonely
She hates herself for loving you
She take a walk in the woods
(While the leaves are falling)
She runs on a path
(Where the wind is blowing)
To forget you

Leona's lying
On the cold ground covered with snow
Her heart is freezing
(It cools her down)
Frost in her hair
(Wish she were sleeping)
To forget you

How did you get under her skin
When she knew all the time where it would lead to?
You knew that you would win
But I don't know if you wanted to

Leona listens
Her heartbeat's back stronger than ever
She's made up her mind
(She's gonna make it)
She loves you still
(Let so be it)
Won't forget you

How did you get under her skin
When she knew all the time where it would lead to?
You knew that you would win
But I don't know if you wanted to

How did you get under her skin
When she knew all the time where it would lead to?
You knew that you would win
But I don't know if you wanted to

Leona's lonely

She hates herself for loving you
She take a walk in the woods
(While the leaves are falling)
She runs on a path
(Where the wind is blowing)
To forget you

How did you get under her skin
When she knew all the time where it would lead to?
You knew that you would win
But I don't know if you wanted to
