How long is it now since you left me?  
I have stopped counting days  
I feel so alone and I will be  
In oh so many ways

Protected and affected  
Is how I feel when you're with me  
Connected than rejected  
And how can this be?

Why can't we kiss and make up?  
Does it have to, does it have to stop?  
Must we fight and break up  
Think it's too good, think it's too good to give up

I guess, you said you were going  
Didn't think it would last  
Now it hurts my soul not knowing  
Anything but the past

Protected and affected  
Is how I feel when you're with me  
Connected than rejected  
And how can this be?

Why can't we kiss and make up?  
Does it have to, does it have to stop?  
Must we fight and break up  
Think it's too good, think too good

Why can't we kiss and make up?  
Does it have to, does it have to stop?  
Must we fight and break up  
Think it's too good, think too good to give up  
Think it's too good, think too good to give up
