Baby, you've been treading on dangerous ground
Better back up, better slow it down
I ain't gonna be satisfied
Until we're walking side by side

The road to love gets rough at times
And some poor souls get left behind
I don't wanna wake up and find you gone
I wanna be more than your stepping stone

I've been let down, put off and cast aside
Oh baby, don't walk all over my pride
You can chase your dreams, just take me along
I wanna be more than your stepping stone

The road to love gets rough at times
And some poor souls get left behind
I don't wanna wake up and find you gone
I wanna be more than your stepping stone

Those girls downtown won't leave you alone
Fast talk, slow walk, coming on strong
Keep in mind that my love is true
Let me be the rock that you hold on to

The road to love gets rough at times
And some poor souls get left behind
I don't wanna wake up and find you gone
I wanna be more than your stepping stone

Gotta be more than your stepping stone
