Do you, do you, do you love me  
Do you, do you, do you love me  
Do you, do you, do you love me  
Do you, do you, do you,  
On the very first day it was delicious  
The bright and shiny kind of love, so precious  
You were taking your time, full service  
Showing all the right signs

On the next day you're not so sure  
You don't love me no more  
Pedal to the floor and then you stop, stop

I wanna feel it in your heartbeat  
When you say yeah,  
Do you mean it or are you really only  
Happy in the backseat, baby  
The same question every time, every time  
Do you, do you, do you love me  
Do you, do you, do you love me  
Do you, do you, do you love me  
Do you, do you, do you,

Did you want it this way, did you plan it  
Did you wanna just play, and get it over with  
Were you feeling lonely on your planet  
When you crashed into me

But now you don't look so sure  
You don't love me no more  
Pedal to the floor and then you stop, stop

I wanna feel it in your heart beat  
When you say yeah,  
Do you mean it or are you really only  
Happy in the backseat, baby  
The same question every time, every time  
Do you, do you, do you love me  
Do you, do you, do you love me  
Do you, do you, do you love me  
Do you, do you, do you,

Footprints in my soul  
Your loving game has let me so cold  
Standing on my front door  
What you wating for?  
What you wating for?  
Your loving game has left me so cold  
Do you, do you

Do you, do you, do you love me  
Do you, do you, do you love me  
Do you, do you, do you love me  
Do you, do you, do you,

Footprints in my soul  
Your loving game has left me so cold  
Standing on my front door  
What you wating for?  
What you wating for?

Do you, do you, do you love me  
Footprints in my soul  
Your loving game has left me so cold  
Standing on my front door  
What you wating for?  
What you wating for?  
Do you, do you, do you love me?
