Hammer down the open road  
Steel pigs my only load  
Country songs are always playin'  
He's a goin', she's a staying  
Briquets keep the fires burning  
Diesel keeps the wheels turning  
Hikers on the edge of town  
Start off young and end up learning  
Shipping steel, shipping steel . . .  
Nobody knows, the way it feels  
Caught between Heaven and the Highway  
Shipping steel, shipping steel . . .  
Some men need a family  
Need the club fraternity  
God's salvation guaranteed  
Mac's the only friend I need
