Temptation
Cold Chisel
(Twentieth Century)

Running so fast, trying so hard
Losing a girl who is closing, she's chasing behind
When I get home I lock up the door
Close the window, I don't come out no more

Take away temptation now
From before my eyes
Take away temptation now
From before my eyes

I've gotta get out, climbing the walls
But it won't be too long till I want to be
Locked up again
Driving me wild, being alone
You're outa my sight and I swear
I'll go outa my head

Take away temptation now
From before my eyes
Take away temptation now
From before my eyes

Running so fast, trying so hard
Losing a girl who is closing, she's chasing behind
Running away, all of the time
Most of the day and all of the night

Take away temptation now
From before my eyes
Just pass me by
