"I Wish I Could"

Visit "[I Wish I Could](#)" on MotoLyrics.com

Wouldn't it be nice
To say anything at anytime
At anyplace anywhere

I wish I could say
Something that would surprise you
But it ain't that easy oh no

Do you find it strange to see me
After all this time
And now that I'm here just don't lie

I want to show you to the world
Right now
I want to show you to the world
But I can't

Do you find it strange to see me
After all this time
And now that I'm here just don't lie

Do you find it strange to see me
After all this time
And now that I'm here just don't lie

I want to show you to the world right now
I want to show you to the world
