F/ Queen Latifah

[ VERSE 1: Queen Latifah ]

I think you're a sucker if you stand there  
In the midst of all this political fanfare  
We're constantly fightin to keep our rights, and  
The more we press on, the more they tighten  
Their grip, but I'm a soldier keepin me from any rupture  
Don't listen to the negative, it will only self-destruct ya  
Blowin a cloud of smoke? Yo, you must be on a mission  
You wanna smoke somethin? Smoke this one

Smoke this one

[ CHORUS ]

Who will save the day?  
Lord have mercy  
Who will find a way?  
Lord have mercy  
Who will take away the strife  
Lord have mercy  
Oh Lord, rescue me from this life  
Lord have mercy

[ VERSE 2: Queen Latifah ]

Who will be the leader? (Who will be the leader?)  
In a government so corrupt, they get greedier and  
greedier  
What happened to 'a government for the people, by the  
people'  
What people? We ain't equal  
Discriminated against for race, religion, education  
And you call this a nation?  
I'm here to tell ya, hey, there ain't a day  
(That what?) we should continue goin on this way  
Who will be responsible for teachin the youth the truth  
Who's accountable for establishin world peace?  
Catch the thugs, get rid of the drugs  
Cure the poor, when will the bullshit cease?  
Think of what you wanna say, no doubt  
No one'll ever know you're stupid till you open your  
mouth

I'm callin your bluff, it's time for a decision  
(Ask me) but if you got more beef, smoke this one

Smoke this one

[ CHORUS ]

[ VERSE 3: Queen Latifah ]

I'm the Queen by virtue of her guidance, show me  
Guarded by the Flavor Unit, no one can dethrone me  
Latifah, the feminine professor of wits  
Coldcut's on the mix  
And it ticks us off when we see so much wrong  
(What's wrong) World, what's goin on?  
That's a question for you to ask yourself  
Or are you that caught up in your wealth?  
Kids are growin up with materialistic minds  
They become cruel and unkind  
Spendin all your money on Nikes and Filas  
But when you see a panhandler, it's "Ha-ha-ha  
What a bum, get a job," I should hit you  
With another verse of lyrics that'll fitcha  
The words are cunning, stunning enough to pierce  
But if you wanna get fierce (do what?) smoke this one

[ CHORUS ]
