Drive the road to your surrender  
Time comes around, out of my hands  
Small boats on the beach at the dead of night  
Come and go before first light, first light

Leave me running in the wheel  
King of the world  
How do you feel  
What is there to feel

And how do we now come to be  
Afraid of sunlight  
Tell me girl, why you and me  
Were scared of sunlight

How do we now come to be  
Afraid of sunlight  
Tell me girl, why you and me  
Were scared of sunlight

Been in pain for so long  
I can't even say what hurts anymore  
I will leave you alone, I will deny  
I will leave you to bleed, I will leave you with your life

So how do we now come to be  
Afraid of sunlight  
Tell me girl, why you and me  
Were scared of sunlight

All your spirit rack abuses  
Come to haunt you back by day  
All your byzantine excuses  
Given time, give you away

So don't be surprised when daylight comes  
To find that memory prick your thumbs  
You'll tell them where to run to hide  
I'm already dead, it's a matter of time  
It's a matter of time

So how do we now come to be

Afraid of sunlight  
Tell me if you're aware you an' me  
Were scared of sunlight

How do we now come to be  
Afraid of sunlight  
Tell me if you're aware you an' me  
Were scared of sunlight

How do we now come to be afraid

Dayglo Jesus on the dash  
Chalk marks on the road ahead  
Friendly fire in hostile waters  
Keep the faith, don't lose your head

So how do we now come to be?
