"Costa Del Slough"

You wake up in a pool of blood
You can't remember that you'd cut
Human beings into pieces
Of dead meat and disgusting guts

Of course they don't deserve to live
But who are you that you decide
Which life will get swallowed
From the eternal jaws of death

Despair pain
Despair leads to hate
Pain causes fear

Try to forget
Time will not heal
Resign deep inside
Devastation of your
Soul don't forget
Time will not heal
Resign deep inside
Devastation of your soul

The reason for your cruel deeds
Are not relevant in a world of creeps
They play the game of the dying
In a world that's crying
Kill or be killed will be the commandment of our
Dirty rotten breed
The death penalty for humanity in world of greed
