We'll be the worms in your apple pie
fake abuse for our bios
blacken our own eyes
the grass isn't greener on the other side
we set it on fire and we have no reason why
we set fashion ,not follow
spit vitriol, not swallow
we set fashion not follow
spit vitriol not swallow
we're good for nothing but being everything thats bad
(x2)
we know who we are and what we wanna say and we
don't care who's listening
we don't rebel to sell it just suits us well
we're the bright young things

got my villain necktie and a mouth of hi-fi so sharp i'm
bleeding
from my judas hole
arch dandy no-goodnik and i'm headed for crashville
most monster with the robots in the "meat shell"
set fashion not follow
spit vitriol not swallow
set fashion not follow
spit vitriol not swallow
good for nothing but being everything thats bad (x2)
we know who we are and what we wanna say and we
don't care who's listening
we don't rebel to sell
it just suits us well
we're the bright young things
crashing the ether
we've got the loudest stereotype
even neophytes deep 6 your pro-life
we don't need to move a single prayer bone we're so
beautiful and damned
simply as a still life

perpetual rebellion with absolutely no cause(x4)
stop the song and try to remember what you used to be
somebody that could fucking impress me

we know who we are and what we wanna say and we
don't care who's listening
we don't rebel to sell
it just suits us well
we're the bright young things (this entire paragraph x3)
