Mother: All that blood pressure medicine you take, and stuff too, you shouldn't take those things... It's better off not to sleep than to take them.

Grandmother: \_\_\_\_\_

Mother: Oh my God. No wonder you got a headache, your pressures probably sky high. Why don't...you gotta take that everyday.

Grandmother: I try to

Mother: Are you crazy?

Grandmother: It's been 3 days.

Mother: That's probably why you have a headache now. Did you take it today?

Grandmother: I took it this morning, yeah.

Mother: That's probably why you have a headache, cuz your pressure's up

Grandmother: Yeah.

Mother: I don't know how you can forget to take it when that's the only pill you take

Grandmother: I take so many pills you'd be surprised.

Mother: Well, the blood pressure pills the most important one.

Grandmother: Yeah.

Mother: There ain't no other one that's important as that one.

Grandmother: I got one more, then I gotta get to the store got two refills on it.

Mother: You only got one pill?  
Grandmother: It only takes one day  
Mother: Well, yeah, but you shouldn't let them get that low.  
Grandmother: I get \_\_\_\_ to take 2 in the morning and then go get it filled.  
Mother: They're expensive. If you have to pay for 'em. Procardia.  
Grandmother: Yeah, the other ones.  
Mother: Which ones?  
Grandmother: I gotta pay for Procardia.  
Mother: Were you taking that everyday?  
Grandmother: Yeah  
Mother: Well that's the blood pressure pill. The heart pill. The Procardia. And what's the other one?  
Grandmother: Umm, H-Y-D-R-O-T-O-N.  
Mother: Aww, that's something to do with water and ah, blood pressure.  
Grandmother: This one says that it is for blood pressure.  
Mother: Yeah, well \_\_\_\_ is like a water pill type pressure, but the Procardia is the important one.  
Grandmother: Yeah.  
Mother: You have to take that everyday.  
Grandmother: Yeah.  
Mother: You should take that the first thing when you get up.  
Grandmother: Yeah, umm...  
Mother: Well how come you ain't takin it?  
Grandmother: I took it yesterday, the Procardia.  
Mother: Well how come you didn't take it today?  
Grandmother: I had the headache today.  
Mother: That's why you have a headache. You gotta take the Procardia. Take it now. That's what's for your headache. That's to make your blood pressure come down.  
Grandmother: Yeah.  
Mother: If you don't your gonna, you'll have a stroke if you don't take it. If you gotta a headache that bad your gonna have a stroke.  
Grandmother: I had a headache that bad this morning.  
Mother: Well you better go take the Procardia right now.  
Grandmother: I will. I'll take the one I got.

Grandmother: I will.  
Mother: Then you'll find out your headache will go away.  
Grandmother: Yeah...I'll take it now \_\_\_\_ Procardia \_\_\_\_\_  
Mother: Any other medicine your taking isn't that important. You ain't got nothing but nerve pills. They ain't important.
