I am the face of piss and shit and sugar
I do a crooked little dance with my funny little monkey
What i want, what i want is just your children
I hate what i have become to escape what i hated being
Caliopenis envy from your daddy
You're not gonna hear what he don't want to hear
What i say disgusts him
He wants to be me and that scares him
Lets do a funny little dance with my funny little monkey
The black keys
Here is my real head, here is my real head
I wear this fucking mask because you cannot handle
me
Here is my real head
They try to blink me not to think me
Don't want to bring me out
I am the rotten teeth, my fists are lined with suckers
My prison skin's an eyesore mirror sketch pad
I am your son
Your dad
Your fag
I am your fad
Here is my real head, here is my real head
I wear this fucking mask because you cannot handle
me
Here is my real head
