In space the stars are no nearer  
Just glitters like a morgue  
And I dreamed I was a spaceman  
Burned like a moth in a flame  
And our world was so fucking gone

I'm not attached to your world  
Nothing heals and nothing grows

Because it's a great big white world and we are  
drained of our colors  
We used to love ourselves, we used to love another  
All my stiches itch  
My prescription's low  
I wish you were queen just for today  
In a world that's so white what else could I say?

And hell was so cold  
All the vases are so broken  
And the roses tear our hands all open  
Mother Marry miscarry  
But we pray just like insects  
And the world is so ugly now

Because it's a great big white world and we are  
drained of our colors
