Your mouth is like a suicide
Talking like you'd never die
Automatic charisma
For your chemical mind

I've suffered for you
I've suffered for you

You're kissing me like benzocaine
With your sleeping pill eyes
Melting me down
And suck, suck, sucking my brain

I'm gonna hate you tomorrow
Because you make me hate you today
I'm gonna hate you tomorrow
Because you make me hate you today

I can be the one that you believe in
I can be the liar in your bed
I'll be the suck for your solution
Tell me that your sex isn't dead

Dead
Your sex is dead

I've suffered for you
I've suffered for you
I've suffered for you
Since the day I was made

I've suffered for you
I've suffered for you
I've suffered for you
Since the day I was made

I'm the center of your hate

I'm gonna beat it you tomorrow
Because you make me hate you today

And I can be the one that you believe in

And I can be the liar in your bed
I'll be the suck for your solution
Tell me that your sex isn't dead

Dead
Your sex is dead

Oh, so tired, desexed and jaded
Hopeless and soulless and bored of the thrill
We'll make a death sex symbol
When we can't fuck then we kill

I've suffered for you
I've suffered for you
I've suffered for you
I've suffered for you
I've suffered for you
I've suffered for you
Since the day I was made

I've suffered for you
I've suffered for you
I've suffered for you
I've suffered for you
I've suffered for you
I've suffered for you
Since the day I was made
