Darling, darling, lovely boy
Tell me what we're headed for
Tomorrow we'll be oceans apart
I'll be flyin' high with half a heart

The dream is always the same
But we make our plans obligations
If I could you know that I'd stay
But we make the bed that we lie in

Maybe someday I'll have that house and garden
But for now the wheels just keep turnin'
I'll go Silently in the mornin'
With my dreams and demands for the day

The dream is always the same
But we make our plans obligations
If I could you know that I'd stay
But we make the bed that we lie in

Hold me, oh hold me
For one more night
let me feel you across the miles

The dream is always the same
But we make our plans obligations
If I could you know that I'd stay
But we make the bed that we lie in

The dream is always the same
But we make our plans obligations

If I could I'd stay, ooh darlin'
