We're havin a heat wave
A tropical heat wave
The temperatures rising, it isn't suprising
She certainly can, can can!

She started a heatwave
By letting her seat wave,
in such a way that the customers say
that she certainly can, can-can!

Gee, Gee!
Her anatomy
Makes the mercury
Rise!
to ninety three

We're havin' a heat wave
A tropical heat wave
The way that she moves
The thermometer grooves
that she certainly can!

"What's your name honey?"
"Pablo."
Certianly can
"Chico"
Certainly can
"Miguelito."

"Pablo, Chico, Miguelito"
OOOH! Can Can

"Pablo, it say here under 'weather report'
It's saying, a friendly warm air is
moving in from..."

"WHERE?"

"Jamaica- moderatly high air pressure will cover the
north east and.."

"WHERE ELSE?"

"The deep south..
small danger of..."

"WHAT?"

"Fruit frost!
Hot and Humid nights can be expected!"

"Vincent 95, Guadeloupe 97, Santo Domingo 99.
Pardon me? 105?"

We're having a heat wave
A tropical heat wave
The temperature's rising
it isn't suprising, I certainly can- can!

I started this heatwave in such a way
that the customers say that I certainly can (can-can)

The man who need
Makes the mercury rise to 93
We're having a heatwave, a tropical, a tropical
heatwave
the way that I move, that thermometer grooves

She certainly certainly certainly can

I certainly certainly certainly can can-can
