"Limit Of Love"

Take me to the limit of love, oh boy
Shoot me up, bring me down, get me spinnin' all
around
Won't you take me to the limit of love, oh boy
Shoot me up, bring me down
Just take me to the limit of love

Your love's just one of a kind
No matter what the weather
As long as we're together
Your kiss can make the sunshine
So just put your arms around me
Blue sky is what we'll both see

You're sweeter than apple pie
Give me one juicy bite, just before we say goodnight
Let my sugar rise, take me up sky high
Lift me up, make me fly, just fill me up and try to

I want much more than goodtimes
So come on and let the world see
Tomorrow's where we'll both be
Don't want nobody else
So don't let me go boy, never
Just stick with me forever

You can satisfy my appetite
With your smooth soundin' voice
You're the meal time of my choice
Come on sugar, sugar just hold on tight
Don't hold out on me now
Come on and show me how to
