Hold up

Slow down little lady

I want to feel that slow rotation
I betcha I could make your hormones go crazy

I betcha I could make your hormones go crazy
Relax girl, and come with me

Let's take a trip out of this world 'til we too high to see

Now hold tight, we got them incorrect thoughts

And a confession

You got me sweatin' with tongue kissin' and caressin'

Now look what happens when we end up in this
smoking session

With no one to interrupt

Now stop runnin'

Yeah yo' body bangin' and you know a nigga want it

So ain't no need to act funny

One night stand so don't worry 'bout me

I'm so [biz]zare bitch, what you know 'bout me

The bodies collide girl I release my key

But I'm deep up in that pussy, I'ma stroke you to sleep

Yeah, now I'ma stroke you to sleep
Yeah, move it slow motion

Move it slow motion

Move it slow motion

(move it slow motion)

Move it slow motion

(Move it slow motion)

I betcha I can make your hormones go crazy

I betcha I can make your hormones go crazy

(Yeah, move it slow motion)

I betcha I can make your hormones go crazy

(Yeah, move it slow motion)

I betcha I can make your hormones go crazy

(Yeah, move it slow motion)

I betcha I can make your hormones go crazy
Look babe, hit this blunt

Taste this skittle, let's get drunk

I'm about to get it wet, like it sunk

Tease you with the tip, before I pump

And I don't need my dick, to make you come

All I need is my tongue

And our intoxication makes it all mo' fun

Thought I was a little nigga,

But now I got you stunned

Numb,

And that was just round one

Started fuckin' at ten, now it's 'bout one

Shit. I ain't finished, I just begun

Pussy looks like I pistol whipped it with my gun

I beat it up, I beat it up ay

Yeah, move in slow motion baby

(yeah, move it slow motion baby)

Move it slow motion

(move it slow motion)

Yeah, move it slow motion baby

(move it slow motion)

I betcha I can make your hormones go crazy

I betcha I can make your hormones go crazy

(yeah, move it slow motion)

I betcha I can make your hormones go crazy

(yeah, move it slow motion)

I betcha I can make your hormones go crazy

(yeah, move it slow motion)

I betcha I can make your hormones go crazy

She said she likes it rough, i laugh

And then I grabbed her by the hair and beat that ass

I'ma take your hormones to another world

Have you feeling like a whole new other girl

And you know there ain't none else above you girl

Come here lay down, put your face down

When I'm in it, you wouldn't wanna finish

Don't worry 'bout that though, I got that unlimit

A little bit of feelings,

a little bit of lemon,

a little bit of vodka and I'm 'bout to fuck the livin'

Out of ya little kitten

Bitin' all on your biscuit Bitin' all on your biscuit,

Muffin, baby hormones of a vixen
Yeah, move it slow motion

(move it slow motion)

Move it slow motion

(Move it slow motion)

Yeah, move it slow motion

(move it slow motion)

I betcha I can make your hormones go crazy

I betcha I can make your hormones go crazy

(yeah, move it slow motion)

I betcha I can make your hormones go crazy

(yeah, move it slow motion)

I betcha I can make your hormones go cray

(yeah, move it slow motion)

I betcha I can make your hormones go crazy

I betcha I can make your hormones go crazy

(relax, girl)

Betcha I can make your hormones go crazy

Betcha I can make your hormones go crazy

(relax, girl)
