Through all this time u know I'm telling the truth  
No need to lie we better step to the truth  
See I've been thinkin' need to know what's the  
Truth  
I wanna truth, strictly the truth  
Just take a look upon  
Mother nature's judgment must be done  
Just take a look at sun  
Armagedion tommorow come  
I never troubled nobody  
Never kill, never will, try not to fool nobody,  
It's against my will  
Think I'm a righteous man  
Coming with a righteous plan  
Foolin' I n' I

The ground is shakin,  
But we ain't gonna miss

Power to the people brutalised by police  
See, no more war, no more go underground,  
We're thinking straight, while your drug is around

See I'm a righteous one  
And I'm coming with a righteous plan  
See I'm a righteous men  
And I'm dealing with a righteous plan

I've never torubled nobody...  
Foolin I n' I

My loneley nation, it's admiration  
People never go lazy  
Spirit liberation, it's admiration  
To be reborn mentaly!

See I'm a righteous one...
